1. Customer Service Information

1.1. Loan Products, Applicable Rate(s) of Interest

Sr. No.	Products	Rate of Interest*
1.	Home Loans	9.69% onwards
2.	MSME Loan Against Property	12.40% onwards

* The above standard rate of interest, may changes based on the credit checks, property paper and other parameters with the appropriate approvals.

1.2. Factors affecting rate of interest

- a. **Type of Interest Rate:** JM Financial Home Loans Limited (the “**Company**”) offers floating rate of interest. The interest amount on your loan may change based on change(s) in the Benchmark Lending rate of the Company i.e. JMFHLR and JMFWLR, from time to time.
- b. **Loan to Value Ratio (LTV):** LTV refers to the percentage of the property value that can be financed through the loan. A larger quantum of loan attracts a higher rate of interest as it leads to higher credit risk. Further, larger down-payment can help bring down the quantum of loan which in turn will reduce monthly EMI amount as well.
- c. **Property’s Location and Condition:** Factors such as location of property, its current location, age of property and amenities available helps in determining the resale value of the property. A higher resale value of property means financial institution incentivizing them to offer lower interest rates to borrower and vice versa.
- d. **Repayment Tenure:** Loans with a shorter tenure attract a lower rate of interest (even if the EMIs are higher) than loans with a longer tenure (which will have lower EMIs but a higher interest rate).
- e. **Customer Profile:** Various factors such as income source, credit score etc. helps the Company in determining the status of the customer. Income source of a customer can be categorized as salaried and self-employed. The customer should have a steady and regular source of income.

Further, credit score is a statement of repayment history, financial discipline or habits, and creditworthiness. A lower credit score shows portrays a high credit risk, which would cause lenders to charge a higher rate of interest in order to cover their risks and vice-versa.

Further, in case a customer is non-individual factors such as profitability, monthly turnover and such other business financials are certain crucial factors which have an impact on rate of interest which may be offered by the Company.

- f. Nature of Business:** The nature of business is defined by activities that individual/non-individual is engaged in. It plays a crucial role in determining term loan interest rates as it helps the lender in examining whether business is profitable or not.
- g. Business Vintage:** Established businesses have a proven track record of handling credit. Unlike new businesses, they provide the lender with a sense of security, which translates into lower interest rates.
- h. Operating Costs** - These involve the costs of doing business. Factors such as the complexity of the transaction, the size of the transaction, location of the borrower, infrastructure costs of the Company and other factors that affect the costs associated with a particular transaction / business / portfolio would be considered before arriving at the final interest rate quoted to a customer.
- i. Applicable Regulatory guidelines**
- j. End use of Loan(s)**
- k. such other material factor(s) which shall be considered by the Company from time to time.**

Customer identification requirements in respect of a few typical cases, especially, legal persons requiring an extra element of caution are given below:

- a. Trust Nominee or Fiduciary Accounts: There exists the possibility that trust/nominee or fiduciary accounts can be used to circumvent the customer identification procedures. Hence, as and when such cases are received, the Company will determine whether the customer is acting on behalf of another person as trustee/nominee or any other intermediary. If so, the Company may insist on receipt of satisfactory evidence of the identity of the intermediaries and of the persons on whose behalf they are acting, as also obtain details of the nature of the trust or other arrangements in place. In the case of a 'foundation', steps will be taken to verify the founder managers/directors and the beneficiaries, if defined.
- b. Accounts of companies and firms: The Company will be careful while processing the cases of business entities specially to establish that individuals are not using those entities for maintaining accounts with it. The Company shall seek information, if required, on the control structure of the entity, source of funds and the natural persons who carry a controlling interest in the management. These requirements may be moderated as per our credit risk policy and guidelines of the operations manual, for e.g. in the case of a public company it will not be necessary to identify all the shareholders.
- c. Client accounts opened by professional intermediaries: When the Company has knowledge or reason to believe that the client account opened by a professional intermediary like Direct Selling Agent or Direct Selling Team or any other sales intermediary by whatever name called is on behalf of a single client, that client will be identified. Where the Company relies on the 'customer due diligence' (CDD) done by an

intermediary like Field Investigation Agency or technical agency or lawyer or any other operation processing intermediary by whatever name called, the Company will ensure that the intermediary is having a bonafide identity with an established track record.

- d. Accounts of Politically Exposed Persons (PEPs) resident outside India: Politically exposed persons are individuals who are or have been entrusted with prominent public functions in a foreign country, e.g. Heads of States or of Governments, senior politicians, senior government/judicial/military officers, senior executives of state-owned corporations, important political party officials, etc. The Company will gather sufficient information as available on any person/customer of this category intending to establish a relationship and check all the information available on the person in the public domain. The Company will verify the identity of the person and seek information about the sources of funds before accepting the PEP as a customer. The above norms may also be applied to the accounts of the family members or close relatives of PEPs.

If the Company decides to establish a business relationship with PEPs, it will ensure the following:

- i. sufficient information including information about the sources of funds/wealth of PEPs is gathered;
- ii. appropriate risk management systems is in place to determine whether the customer or the beneficial owner is a PEP

- v. all such accounts will be classified as High Risk and will be subjected to required due diligence and monitoring, as applicable;
- vi. if it gets confirmed to the Company that an existing customer or the beneficial owner of an existing account has subsequently become a PEP, an approval from a senior official of the Company will be obtained to continue the business relationship;
- vii. further, such existing accounts that get classified PEPs subsequently will be subjected to enhanced due diligence, as applicable.

The above will also be applicable to accounts where a PEP is a beneficial owner and to family members or close associates of PEPs.

- e. Accounts of non-face-to face customers: In the case of non-face-to-face customers, apart from applying the usual customer identification procedures, the Company will do telephonic/personal discussion with the applicant, if necessary. Applicant will be met by the company's representative of the Company and will fill up the meeting sheet on that basis to mitigate the higher risk involved, as applicable. Certification of all the documents presented may be insisted upon and, if necessary, additional documents may be called for and

applicable verification of these documents will be done. In the case of cross-border customers, there is the additional difficulty of matching the customer with the documentation and the Company may have to rely on third party certification/introduction. In such cases, it will be ensured that generally the third party is a regulated and/or supervised entity with an established track record. Hence apart from the existing due diligence for such customers, the Company may take resident Indian Co-applicant as a party to the loan proposal or a local resident guarantor to the loan with identity verification. An indicative list of the nature and type of documents that may be relied upon for customer identification is given in the Annexure I.

f. JM Financial Home Loans Limited (JMFHLL or “the Company”), is registered with the National Housing Bank as a housing finance company and will follow the above norms.

With a view to increase an awareness among the borrowers, RBI requires the NBFCs to frame Consumer Education Literature explaining with examples the concepts of date of overdue, SMA and NPA classification and upgradation, with specific reference to day-end process

CONSUMER EDUCATION LITERATURE:

a. Overdue and date of overdue:

Any amount due to the Company under any credit facility shall be treated as overdue if it is not paid on the due date fixed by the Company. Borrower accounts shall be flagged as overdue by the Company as a part of the day- end process for the due date and date of overdue shall be calendar date for which the day-end process is run.

Example: *If the due date of a loan account is March 31, 2021 and full dues are not received before the Company runs the day-end process for this date, the date of overdue shall be March 31, 2021.*

b. Classification as Special Mention Account (SMA):

- ✓ Classification of the borrower accounts as SMA shall be done as part of day-end process for the relevant date and the SMA classification date shall be the calendar date for which the day-end process is run.
- ✓ The basis for classification of SMA categories shall be as follows:

SMA categories	sub-	Basis for classification – Principal or interest payment or any other amount wholly or partly overdue
SMA-0		Upto 30 days
SMA-1		More than 30 days and upto 60 days
SMA-2		More than 60 days and upto 90 days

c. Classification as Non-Performing Asset (NPA):

Classification of the borrower accounts as NPA shall be done as part of day-end process for the relevant date and the NPA classification date shall be the calendar date for which the day-end process is run.

NPA means:

- an asset, in respect of which, interest has remained overdue for such period as may be prescribed by RBI from time to time;
- a term loan inclusive of unpaid interest, when the installment is overdue for such period as may be prescribed by RBI from time to time;
- a demand or call loan, which remained overdue for such period as may be prescribed by RBI from time to time;
- a bill which remains overdue for such period as may be prescribed by RBI from time to time;
- the interest in respect of a debt or the income on receivables under the head 'other current assets' in the nature of short term loans/advances, which facility remained overdue for such period as may be prescribed by RBI from time to time;
- any dues on account of sale of assets or services rendered or reimbursement of expenses incurred, which remained overdue for such period as may be prescribed by RBI from time to time;
- the lease rental and hire purchase installment, which has become overdue for such period as may be prescribed by RBI from time to time; and
- in respect of loans, advances and other credit facilities (including bills purchased and discounted), the balance outstanding under the credit facilities (including accrued interest) made available to the same borrower/beneficiary when any of the above credit facilities becomes nonperforming asset.

Example: *If the due date of a loan account is March 31, 2021 and if it continuous to remain overdue till June 29, 2021, then the borrower account will be classified as NPA as on June 29, 2021 upon running day-end process on June 29, 2021.*

d. Upgradation of accounts classified as NPA:

- It is said that loan accounts classified as NPAs may be upgraded as 'standard' asset only if entire arrears of interest and principal are paid by the borrower.
- In case if the borrower is having more than one credit facilities, the loan account will be upgraded from NPA to standard category only when entire principal and interest outstanding amount pertaining to all credit facilities is paid by the borrower.
- No delinquency should be present in any of the credit facilities availed by the borrower from the Company.
